

Of. 26/2015/GGCP/SAR

São José dos Campos, 13 January 2015

Mr. Steve W. Dickenson
ACR Electronics Inc.
5757 Ravenswood Road
Fort Lauderdale, FL – 33312
USA

Subject: Design Approval Letter – DAL for ANAC Project Number H.11-0090-0006

Ref: ARTEX application dated 13 November 2014.
FAA letter dated 17 November 2014.

Dear Sir,

1. After reviewing the data you submitted to comply with Brazilian requirements set forth in the ANAC RBAC 21.617, the ANAC grants to ACR/ARTEX this Design Approval Letter – DAL for the:

Part Number	Description	TSO
A3-06-2749-1	Emergency Locator Transmitter Model ELT 1000	C126b

2. There are no deviations for this approval. Please be advised that major modifications defined in RBAC 21.611(b) of the current design should be submitted to ANAC after FAA approval.

3. As a design approval holder, you are required to report to the ANAC any failure, malfunction or defect related to the products identified herein in accordance with RBAC 21.3. You must also notify ANAC when you discontinue the production of these articles.

4. Please note that TSO articles must have a separated approval for installation in an aircraft.

5. Mr. Cesar Silva is the project officer assigned for this program. For additional information on this subject, he may be contacted directly by telephone at 55 (12) 3203-6737 or by e-mail at cesar.silva@anac.gov.br.

Yours sincerely,

Hélio Tarquínio Junior
